

I offer two types of travel companionship:
First, for small groups who want to explore the most beautiful spots in **Switzerland** – I can organize photo tours ranging from one to three days.

Second, I can join you on your trip **abroad** and capture the important, beautiful, and memorable moments along the way.

The schedule is fully customized to your plans. A **typical travel** day includes about 4 hours of shooting and 4 hours of photo selection, editing, and delivery.

Below you'll find some example packages with estimated costs. Of course, I'll be happy to create a custom offer just for you.

Speaking of safaris – if you're spending two weeks in Africa and want a dedicated photographer for your day with the wildlife, I'd be happy to join you for that special day. In that case, two working days plus two travel days (600.- each) will be added, along with travel costs (economy flight with SWISS from Zurich and transfers).
